

## **MGS REBRANDS MOLDING OPERATIONS**

*April 2014*

In an effort to further strengthen its company brand and to facilitate the ability to cohesively present its services and technologies, MGS Mfg. Group, Inc. is formally renaming its molding operations. Previously known as TecStar Mfg. Company, the name will be changed to MGS Group North America, Inc. on April 1, 2014.

Each of the company's molding facilities originally branded as TecStar are also being renamed: The 180,000 square foot molding facility in Germantown, Wisconsin (the largest of the company's molding divisions) will now be called MGS Germantown; the facility in Libertyville, Illinois will be called MGS Libertyville; and the plant in Chihuahua, Mexico – known as TecStar de Mexico - will be changed to MGS Plastics Chihuahua, S.A. de C.V.

This is a name change only and will not impact the company's locations, personnel, processes or services.

The company's two additional molding operations in Antioch, Illinois and Leixlip, Ireland will not be affected by the name change. Furthermore, the parent company in which all divisions fall under will remain as MGS Mfg. Group, Inc.
