

Employment Opportunities

Company: MGS Mfg. Group

Location: Germantown, WI 53022

Status: Full Time, Employee

Job Category: Manufacturing & Production

The **MGS Mfg. Group** adapts to the needs of our customers along with cultivating new concepts and goals within the plastic industry. Throughout our growth and constant change, we have remained a partner to our customers, suppliers, and employees by learning from them, growing with them, and most importantly, never forgetting that without them, the evolution and success of this corporation would not have been possible. MGS Mfg Group is currently seeking qualified professionals in the following areas:

Toolmakers / Moldmakers

Pay Range: \$20 - \$30 hour based upon knowledge, experience & advancement opportunities

Qualifications:

- . Background in plastic injection molds setup
- . Able to operate all tool room manual machines
- . Good print reading skills
- . Able to work in a 3D environment

Senior Buyer

This position will responsible for sourcing direct or indirect materials, components, and equipment at the lowest total cost for the quantity, quality, and delivery required. This position will also organize and archive material compliance documentation (RoHs, REACH, etc) for the company. The ideal candidate will have a Bachelor's degree and 5-7 years of progressive purchasing experience with a background in MRP. CPM and CPIM a plus.

Quality Engineer

Seeking a Quality Engineer with a minimum of 2-5 years experience working in a highly regulated environment (GMP, ISO, FDA). The ideal candidate will possess a strong statistical background and extensive problem solving experience using Six Sigma and Lean methodologies (CQE, Black Belt or Green Belt preferred). Qualified candidates must be able to interpret complex blue prints (GD&T), and be skilled in the use of metrology equipment (OGP, CMM, etc.). Strong validation (process, equipment, software), FMEA, CAPA, documentation, and computer experience is required. Recent college grads are encouraged to apply.

Customer Service Representative

This position will provide dedicated and thorough service to our customers on their production orders. The candidate will be responsible for following all orders through our ERP system and providing outstanding service and follow-up to our internal and external customers. The ideal candidate will have 3-5 years of customer service experience in a manufacturing environment and be proficient in WORD and EXCEL. Plastics experience is a plus.
