The MGS Mfg. Group has ISO Class 8 Clean Room Molding and Assembly capabilities. Our clean rooms are ISO-9001:2000 certified and have achieved "Certified Supplier" and "Ship to Stock Medical Part" status from many leading global corporations. All parts produced in our clean rooms are constantly monitored and recorded by our Quality Assurance Department to meet your specifications. This includes material certifications, packaging, dimensional accuracy, and surface finish.

Our presses are fitted with automated robots to facilitate faster cycle times, improved accuracy, and promotion of operator safety. The equipment we use is well maintained by a knowledgeable and experienced engineering team.

We Offer:

- ◀ Class 8 Clean Room Conventional & Multishot Injection Molding
- ◀ Class 8 Clean Room Value-Added Secondary Operations
- ◀ Semi & Fully Automated Assembly Systems

**ISO 9001:2000 Certified, FDA (Food And Drug Administration) Registered
UL (Underwriters Laboratories) Regulated**
